

Sprint 8 Review Report

Scrum master: **Teemu Laasio**

Sprint Goal

The goal of this sprint was to finalize the project, present the project to the audience and finish all documentation.

Completed Tasks

The following Sprint 8 tasks were completed:

- **Final Project Presentation:** Presented the project to the audience.
- **ReadME:** The project repo ReadMe was finalized and done.

Demo Summary

The final project presentation was held. The key points in the presentation were the localization of the application, the architecture, testing methods, and the results of the tests.

What Went Well

- The sprint advanced very smoothly and did not face any major roadblocks.

What Could Be Improved

- Time Management

Next Sprint Focus

The next sprint will focus on fixing all of the issues found during testing. The team has done a bug tracking list which will be the main priority in the next sprint.

Work Distribution

The following table defines the tasks, and time spent executing them for each team member.

Member	Tasks	Time Spent (h)	In-class tasks
Aleksi Putkonen	Final Presentation, ReadME	10	Done
Blendi Grajqevci	Final presentation,	10	Done

	ReadME		
Teemu Laasio	Final Presentation, ReadME	10	Done
Alabass Alkhersany	Final Presentation, ReadME	10	Done
